

Manufacturer's Allergen Statement

Regulation EC No. 1223/2009

Product name: **Witch Hazel Distillate (14% alcohol)**

None of the compounds or mixtures listed in 1223/2009 are used in the production of the Witch Hazel we offer. Further, Repeat Insult Patch Test (RIPT) conducted by an independent laboratory demonstrated that the Witch Hazel products we offer do not induce irritation nor show any evidence of induced allergic contact dermatitis in human subjects.

The Witch Hazel products we offer were analyzed according to the manufacturer's Standard Operating Procedure GC-ECDA (Gas Chromatography –Mass Spectroscopy). This method shows detection and identification at 1ppm for the analytes listed below. Of the lots tested, none were found to contain \geq mg/L of any of the compounds listed.

Name	CAS	Name	CAS
Alpha-isomethyl ionone	127-51-5	Coumarin	91-64-5
Amyl Cinnamal	122-40-7	Eugenol	97-53-0
