**MATERIAL SAFETY DATA SHEET
COLLOIDAL OATMEAL**

3/23/12

1. Camden- Grey Essential Oils
3567 NW 82 Avenue
Doral, FL 33122

Phone: 305-500-9630
Fax: 305-500-9425
Web: www.camdengrey.com

Identification: 100% Avena Sativa (Oat) Kernel Protein
Intended uses: Personal care and cosmetics

2. Identification of Danger

Non- dangerous preparation under normal operating conditions

3. Composition/Information About Components

Name of product: 100% Avena Sativa (Oat) Kernel Protein
Substance creating a danger: grain-related dusts
Impurities creating a danger: nuisance particulates

4. First Aid

In case of contact with eyes: rinse affected area with water, consult a physician if condition persists
In case of contact with skin: rinse affected area with water, consult a physician if condition persists
If swallowed: Innocuous

5. Fire Fighting

Not flammable
Special risks of fire or explosion: sufficient concentrations of airborne dust can produce explosion hazard.
Special measures of fire fighting: none

6. Measure To Take In Case of Incidental Dispersion

Individual precautions: protective goggles if eye irritation experienced MSHA/NIOSH approved respirator if excessive dust.
Precautions for environmental protection: no special precautions for disposal not defined as hazardous under RCRA.
Cleaning methods: Regular housekeeping (vacuum or dry sweep) avoid creating dust cloud

7. Handling and Storage

Handling: Handle in a manner that will produce minimal dust generation
Storage: Store in a cool dry area
Packaging: Plastic lined fiber drum

8. Exposure Control/Individual Protection

Hand Protection: None
Eye Protection: Protective goggles if eye irritation is experienced or if eye contact is likely.

9. Physical And Chemical Properties

General appearance: Powder
Color: Off-white
Odor: Characteristic
pH: N/A
Boiling point: N/A
Flash point: N/A

Explosion hazard: Possibility of dust explosion
Apparent density: Possibility of dust explosion
Solubility/water solubility: minimal

10. Stability and reactivity

Non-reactive

Conditions to be avoided: heavy dust concentrations, ignition source

Products to be avoided: none

Dangerous decomposition product: none

11. Toxicity Data

LD 50 (oral supply/mice): Edible

Contact with skin is not irritant.

Contact with eye can create a local irritation.

12. Ecological Data

No apparent ecological impact.

13. Data about Disposal

Should be disposed of according to local regulations. The packaging is non-polluting as are the products.

Comply with local regulations.

14. Data about Transport

Regulations concerning transport of dangerous substances are not applicable.

15. Data About Regulations

Regulations concerning labeling of dangerous substances are not applicable.

Comply with any national regulation applicable to the case.

HMIS Codes

Health (Blue) - 1

Flammability (Red) - 0

Reactivity (Yellow) - 0

Protective Equipment (White) - E

16. Other Data

Recommendations about training: not applicable

Application of the product concerned by this data sheet: cosmetics, personal care

Sources of the main data used in this data sheet: Camden-Grey Essential Oils

IATA - NON HAZARDOUS FOR AIR TRANSPORT
